

João Vitor Fontoura Jardim

Front-End Developer

I am a Frontend Developer with over a year of experience, primarily working with Next.js, TypeScript, Tailwind, and Figma. Currently, I am an IT HR intern at Wilson Sons, building and maintaining software for the HR department. I have experience working in agile teams, integrating end-to-end software, always prioritizing a good user experience and application security.

Experience

Wilson, Sons Serviços Marítimos

IT HR Intern | December 2023 - Present

Projects: [Portal Intranet](#)

Currently interning at Wilson Sons Serviços Marítimos, where I work on web application development and maintenance of internal systems in the Human Resources department. My main responsibilities include creating and developing interfaces, as well as integrating with APIs and databases. The main technologies used are Next.js, TypeScript, PL/SQL, and Python.

No Match

Front-End Developer | September 2023 - November 2023

Projects: [Robbin](#)

Worked as a front-end developer at No Match studio, focusing on developing high-conversion creative landing pages using advanced interactive styling techniques. The main tools used were Astro, React, Tailwind, and JavaScript.

Allnftlab

Front-End Developer | March 2023 - August 2023

Projects: [Zico: The Legacy Collection](#), [Museu Flamengo](#)

Worked as a front-end developer at Allnftlab, a creative blockchain technology lab based in Rio de Janeiro. My main responsibilities were developing landing pages and checkout processes using technologies such as Next.js, TypeScript, and Tailwind, involving API consumption and integration with the backend and blockchain network.

Freelancer

Front-End Developer | October 2022 - Present

Projects: [Kizomba dos Saberes](#)

Since October 2022, I have been working as a freelance web developer, primarily focusing on technologies such as TypeScript, Next.js, and Tailwind. During this time, I have had the opportunity to collaborate with various clients, translating their visions into practical and effective solutions.

Education

Systems Analysis and Development | UNESA

2022 - Present

High School | Escola Parque

2012 - 2014
